COFFEE AND TEA SERVICE

Our Mission

To provide our business customers with the best quality, value, and service for office coffee and beverage needs.

Description and Terms

Summary: CoolerZone™ services and maintains a professionally managed office coffee and beverage service. Our service consists of commercial grade coffee brewing equipment, leased from us and installed in your facility and maintained by CoolerZone™, and a great selection of coffee and teas. CoolerZone™ will deliver consumables and service your account every three weeks. As an option, we will also install a high-quality water cooler/filtering system that provides pure drinking water, the highest quality water to assure good-tasting coffee.

Equipment: The commercial grade coffee brewing equipment may vary in size and style to suit your specific application. Each brewer includes one (1) carafe or airpot. Additional carafes, airpots, and servers (commercial grade larger volume units) can be purchased as needed. Loss or damage to carafes and other equipment will be charged at prevailing cost.

How deliveries of consumable items are handled:

- CoolerZone™ will stock and service your account every three weeks, according to your route assignment (See Route Service Dates, page 2). We will work with you to ensure you are well stocked.
- There is no charge for delivery of consumables.
- There is a \$15.00 charge for rush or special delivery orders (orders to be filled other than on your regularly scheduled route date).
- If you don't want us to deliver consumables, let us know via phone and fax. We will not stop by if you don't need anything. If you want to resume deliveries, just call or fax us an order.

Terms: Payment terms for all accounts is net 15 days, for accounts in good standing. Invoices for consumables are issued the day of delivery. Loss or damage of any carafes are at prevailing cost. Consumables shortages must be claimed within 24 hours of delivery.
